SIMLA, SATURDAY, AUGUST 23, 1958 (BHADRA 1, 1880)

Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 23rd August 1958

SPECIAL NOTICE

The following Groups of Abridgments of Patent Specifications have been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi at Re. 1 per copy.

Copies are also available for sale at the Counter of the Government of India Book Depot, 8, Hastings Street, Calcutta, on cash payment.

Group LVIII —Electric conduction, insulation, measurement, electrolysis, and batteries.
(Containing Abridgments of Patent Specifications between Nos. 30,001 and 35,000).

Group I —Agriculture.
(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

Group XI —Fats, waxes and oils.
(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000).

CORRIGENDUM

In the Gazette of India, Part III, Section 2, dated the 16th August 1958, under the Heading "RENEWAL FEES PAID"—

For No. 53230,
Read No. 55230.

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

7th August 1958

- 64886. Wall Macnaught Pty. Limited. Improvements in pumps for pumping viscous substances. (8th August 1957).
- 64887. R. Georges. Improvements in or relating to bladed wheels, more particularly for gas turbines.
- 64888. E. S. Tupper. Coupling means for tubular vessels.
- 64889. Ciba Limited. Manufacture of cyclic amides.
- 64890. The O. Hommel Company. Low temperature vitreous coating for steel.
- 64891. D. C. Baxter. Improvements in or relating to the smelting of ores.
- 64892. Owens-Corning Fiberglas Corporation. Method of and apparatus for producing strand products and products so produced.

8th August 1958

- 64893. V. K. Paranjape. Economic and hygienic use of galvanising plant residues.
- 64894. G. Hilgers (Dr.-Ing.). A method of distilling coal dust and/or cracking liquid and/or gaseous hydrocarbons by thermal means. (16th May 1958).
- 64895. W. Petersen (Dr.-Ing.) and S. Wawroschek (Dr.-Ing.). A method of producing mixture briquettes. (4th June 1958).
- 64896. Caterpillar Tractor Co. Flow Control valve for hydraulic jack system.
- 64897. American Cynamid Company. Preparation of improved tetracycline-metaphosphate complexes. (30th May 1958).
- 64898. Whitin Machine Works. Doffing apparatus for textile machine.
- 64899. D. Napier & Son Limited. Starting systems for internal combustion engines. (8th August 1957).
- 64900. A. F. R. Peyron. Process and apparatus for the application and removal of make-up.
- 64901. Creed & Company Limited. Improvements in printing telegraph apparatus. (9th August 1957).
- 64902. B. B. Blackford. Method of improving the aging of pressure-sensitive adhesive coated fabrics and fabrics so produced.
- 64903. G. M. Pfaff AG. Thread guide at sewing machine.

9th August 1958

- 64904. Bansi & Co. Dual strike bicycle bells.
- 64905. V. H. Patel. Construction of shaded pole type self-starting unidirectional synchronous motor for instrumental use.
- 64906. Takeda Pharmaceutical Industries Limited. Water-soluble methylhesperidins and their production.
- 64907. Imperial Chemical Industries Limited. New monoazo dyestuffs. (23rd August 1957).
- 64908. Dr. Karl Thomae Gesellschaft mit beschränkter Haftung. Pyrimido-[5, 4-d]-pyrimidine compounds and a process of making same.

11th August 1958

- 64909. D. P. Charles. Portable fire extinguishing apparatus.
- 64910. American Cyanamid Company. Preparation of L-lysine.
- 64911. Stamicarbon N. V. Process and apparatus for carrying out chemical reactions at high temperature.
- 64912. Dunlop Rubber Company Limited. Improvements in or relating to pneumatic tyres. (24th September 1957). [Addition to No. 54795].
- 64913. The Distillers Company Limited. Continuous process for the production of cobalamins. (13th September 1957). [Addition to No. 64245].
- 64914. The British Drug Houses Limited. Organic compounds. (19th August 1957).

64915. Wurttembergische Spindelfabrik G.m.b.H. Improvements in belt-tensioning means in spinning or twisting machines. (16th December 1957).
64916. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Improved method of vulcanising substantially amorphous sulphochlorinated copolymers of alpha-olefins.
64917. The British Petroleum Company Limited. New diols and their method of preparation. (16th August 1957).
64918. The British Petroleum Company Limited. New polyesters and their methods of preparation. (16th August 1957).
64919. The British Petroleum Company Limited. New Polyesters and their methods of preparation. (16th August 1957).
64920. The British Petroleum Company Limited. Improvements relating to synthetic lubricants. (16th August 1957).
64921. The British Petroleum Company Limited. Improvements relating to synthetic lubricants. (16th August 1957).
64922. The British Petroleum Company Limited. New polyesters and their methods of preparation. (16th August 1957).
64923. The British Petroleum Company Limited. Improvements relating to synthetic lubricants. (16th August 1957).
64924. S. A. J. Liljendahl. Improvements in or relating to water closets.
64925. International Combustion (Holdings) Limited. Improvements in or relating to steam generator and water heating equipment. (19th September 1957).
12th August 1958
64926. American Cyanamid Company. Preparation of substituted piperazines. (29th April 1958).
64927. Marconi's Wireless Telegraph Company Limited. Improvements in or relating to noise suppressing circuits for radio receiving and other signal channels. (30th September 1957).
64928. The General Electric Company Limited. Improvements in or relating to circuit arrangements for operating low pressure electric discharge lamps. (29th August 1957).
64929. Henrich Koppers Gesellschaft mit beschränkter Haftung. Process for the production of valuable gaseous hydrocarbons. [Addition to No. 57190].
64930. Elektrokemisk I/S. Process for tapping of electric smelting furnaces.
64931. A. Schule. Cableway conveyor. (12th August 1957).
64932. United States Atomic Energy Commission. Direct ingot process.
64933. Farbwerke Hoechst Aktiengesellschaft vormals Meister Lucius & Bruning. Process for producing fast dyeings and prints on structures of aromatic polyesters, especially of polyethylene terephthalates.
64934. Food Machinery and Chemical Corporation. Swivel pipe coupling.
64935. Ciba Limited. New esters and a process for their manufacture.
64936. Ciba Limited. Manufacture of 11 -hydroxy-17 -methyl-testosterone.
64937. Ciba Limited. New androsterone compounds and process for their manufacture.
13th August 1958
64938. Flex Fasteners Limited. Improvements in or relating to sliding clasp fasteners. (30th August 1957).
64939. United States Atomic Energy Commission. Device and method for producing power.
64940. The Goodyear Tire & Rubber Company. Improvements in tubeless pneumatic tire.
64941. Carrier Corporation. Air conditioning systems for industrial applications.
64942. D. A. Moir and G. G. Webber. Improved dispensing device.
64942. N. V. Philips Gloeilampenfabrieken. Improvements in or relating to semi-conductive blocking-layer systems, particularly transistors or crystal diodes having a vacuum-tight envelope and methods of producing these systems.
64944. Woodall-Duckham Construction Company Limited. Improvements relating to the discharging of coke from horizontal coke oven batteries. (14th August 1957). [Addition to No. 58571].
64945. P. A. Mueller. Filter plugs for cigarettes and method of and device for manufacturing a filter rope therefor.
64946. G. M. Pfaff A. G. Means for mounting the presser foot on sewing machines.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

59295. Council of Scientific and Industrial Research. A process for the production of alkali salts like alkali-nimbidinates having medicinal properties from bitter constituents of nim. Accepted on 12th August 1958.

By hydrolysing with caustic alkalies.

59669. The General Electric Company Limited. Improvements in or relating to machines suitable for use in mass production processes for example for the production of incandescent filament lamps. (23rd February 1956). Accepted on 13th August 1958.

Secondary member travelling along a working path produced by rotation of the member about a point which moves around a closed path, the working path having one fixed cusp position, where operation is effected on or by part carried by the member, one other fixed position at which the member moves with same velocity as main member at a point on the path of the latter, and action effected at this point involving co-operation between parts carried by both members.

59673. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and K. Ziegler. Improvements in the preparation of crystalline polystyrene. (15th February 1957). Accepted on 13th August 1958.

Polymerising styrene in presence of a catalyst.

59836. Shri Ram Institute for Industrial Research. Improvements in or relating to the resin treatment of textiles. Accepted on 13th August 1958.

Textile material treated with urea-formaldehyde type precondensate is passed through a fluid bed having hydrophilic properties.

60014. The Dow Chemical Company. Composition for warm blooded animals comprising a systematic agent. Accepted on 8th August 1958.

Comprising a systematic agent in admixture with a feed for warm blooded animals.

60160. P. O. Skoldberg. A method of and an apparatus for destroying bacteria and other organisms in a liquid. Accepted on 13th August 1958.

Liquid is forced through a straight elongated tube in a continuous flow completely filling said tube and pressure waves in train form of repeated positive impact pulses having high pressure amplitude are propagated in the longitudinal direction of said tube.

60575. Imperial Chemical Industries Limited. Polyethylene films. (1st June 1956). Accepted on 8th August 1958.

One or more finely divided inert materials is/are incorporated in polyethylene before it is converted into film.

60626. D. Napier & Son Limited. Devices for sensing the rate of change of flow of liquids and fuel systems including such devices. (11th June 1956). Accepted on 12th August 1958.

Comprising a main orifice in pipe, a spring-loaded piston in cylinder whose opposite ends communicating with pipe upstream and downstream of main orifice, an auxiliary orifice in passage leading from the pipe to one end space of cylinder and a pressure sensitive element for sensing pressure drop across auxiliary orifice.

60851. C. I. Williams. Wire Tie. Accepted on 7th August 1958.

An inner tie rod having both ends threaded and a pair of outer tie rods having integrally formed conical members which are complementally formed to receive a threaded end of the inner tie rod.

60958. Vameco Trust Fur Vacuum-Technik Reg. A method and means for vapour coating strips, especially paper strips, in vacuum. Accepted on 7th August 1958.

Wherein the strip to be coated is firstly re-wound for degassing in a separate chamber on a reel contained in a capsule which is then placed in an opened vapour coating apparatus.

60968. Ciba Limited. New monoazodyestuffs, their application and process for their manufacture. Accepted on 8th August 1958.

Coupling diazo compound of amine with hydroxynaphthalene sulfonic acid.

61052. Imperial Chemical Industries Limited. Continuous bleaching of cellulosic textile materials. (29th October 1956). Accepted on 13th August 1958.

Passing fabric successively through baths of (i) trichloroethylene or perchloroethylene, (ii) water to remove solvent, (iii) aqueous alkaline solution of peroxygen compound and (iv) steaming in contact with alkali chlorite.

61187. W. H. Miner, Inc. Shock absorbing mechanism. Accepted on 12th August 1958.

Friction shoes bonded to certain rubber cushioning units and in frictional engagement with the walls of the shell other units having undercut peripheres being disposed in groups between those having shoes.

61199. Montecatini Societa Generale Per L'Industria Mineraria E Chimica. Linear high-molecular weight unsaturated copolymers and process for preparing them. (10th July 1957). Accepted on 13th August 1958.

Polymerising a mixture of ethylene, atleast one olefin and atleast one conjugated diolefin in the presence of an inert solvent and a catalyst.

61209. F. Salansky. Improvements relating to vacuum brake cylinders and the pistons therein. Accepted on 8th August 1958.

Piston is guided centrally by a fixed part of the brake cylinder or the vacuum chamber around and above such cylinder.

61410. Blackwoods India Limited. Filing cabinets. Accepted on 13th August 1958.

Rack or tray for the files is pivotally or hingedly mounted along its vertical axis to the cabinet such that rack can swing in or out along an arc.

61689. Chas. Pfizer & Co., Inc. Antibiotic compositions and preparation thereof. Accepted on 7th August 1958.

Incorporating a surface active agent with tetracycline antibiotics.

61720. Dr. R. S. Dubey and Walchandnagar Industries Limited. Improvements in the recovery of useful products from wastes in the oil and fat bleaching and hydrogenation processes. Accepted on 7th August 1958.

Saponifying the fatty matter of the wastes with an alkali, graining the soap and separating it by mechanical means.

62009. The Goodyear Tire & Rubber Company. Improvements in metal body members having a facing of sintered metal fused thereon. Accepted on 12th August 1958.

Comprising a metal body member having a facing of sintered metal fused to the body member, the facing being well spaced from the highly stressed portion.

62325. The Dow Chemical Company. Method for making cellular vinyl aromatic polymers. Accepted on 9th August 1958.

A cellular polymeric composition comprising a thermoplastic vinyl aromatic polymer containing at least 80 per cent by weight of one monovinyl aromatic compound having neopentane uniformly dispersed throughout is made by heating the composition above the softening point and above the boiling point of the neopentane.

62343. Koppers Company, Inc. Improvements in or relating to removal of carbon dioxide and carbon monoxide from gases. Accepted on 8th August 1958.

Flowing gas in contact with calcined natural dolomite in which proportion of calcined carbonate to magnesium carbonate is one to one and calcined dolomite is present in grain size of granular fractions between 2 and 20 mm.

62521. Megator Pumps and Compressors Limited. Improvements in fluid compressors. (13th December 1956). Accepted on 12th August 1958.

Having plurality of displacement chambers or cylinders operating in sequence, effective delivery valve of any one of said chambers being under control of another chamber.

62561. Molins Machine Company Limited. Improvements in or relating to a process for making metallic endless bands and other articles. (14th December 1956). Accepted on 11th August 1958.

Wherein an electrically conductive surface of a width at least equal to the desired band width is coated with metal to form an endless band by electrodeposition.

62731. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and G. D. Varda. Cell for fused-salt electrolysis with self-restoring anode and furnace and process using such cell. (31st December 1957). Accepted on 13th August 1958.

Comprising two electrodes with opposed inclined plane and parallel active faces of which the anode comprises an electrolytically consumable and restorable active layer, characterised in that the surface against which the layer rests forms an acute dihedral angle with the plane of the opposite electrodic face.

62732. Montecatini Societa Generale Per L'Industria Mineraria E Chimica and G. D. Varda. Refractories resistant to aggressive melts and treatment for obtaining them. (24th December 1957). Accepted on 13th August 1958.

Refractory is contacted with an inert liquid that wets the refractory and contains, relevant quantities of organic substances apt to be coked and the impregnated refractory is subjected to subsequent coking heat-treatment.

62798. Food Machinery and Chemical Corporation. Improvements in the bleaching of cellulosic fabrics. Accepted on 9th August 1958.

Fibres absorbing an alkaline peroxide bleaching solution, contacting the fibres with steam in a closed container at pressure about 30–80 p.s.i.

62993. Sulzer Freres, Societe Anonyme. Apparatus for controlling a forced flow once-through steam generator. Accepted on 12th August 1958.

Recirculating system connected to the fluid heating tubes including a recirculating pump for establishing a positive recirculation of the working fluid through the heating tubes and the recirculation system, a control device responsive to steam load and a regulating device actuated by said control device.

63054. "Dihag" Deutsch-Indische Handelsgesellschaft. An improved electric switch. Accepted on 9th August 1958.

Provided with an extension in its central portion for holding a ball adapted to bear against and support a contact piece and two collars.

63656. British Nylon Spinners Limited. Method for winding double taper yarn packages in duntwisting, winding and like machines having constant stroke traverse and shift mechanisms, and machines therefor. (5th April 1957). Accepted on 9th August 1958.

The traverse guide is provided with a shift motion moving under acceleration as it approaches each end of its stroke and/or under deceleration as it starts each stroke.

63744. Casablancas High Draft Company Limited. Improvements in or relating to drafting apparatus for textile fibres. (6th May 1957). Accepted on 7th August 1958.

The combination of a lower tensor extending over the greater part of the operative run of the lower end and serving to deflect the said run.

63745. Casablancas High Draft Company Limited. Improvements in or relating to top arms for roller drafting mechanisms. (2nd July 1957). Accepted on 7th August 1958.

A top arm having an inverted channel form with comparatively shallow side walls and roller holding and weighting unit each incorporating guide means.

63816. Unilever Limited. Improvements relating to presses for producing objects from plastic material. (2nd May 1957). Accepted on 9th August 1958.

A press for producing objects from plastic material having two co-operating dies, at least one of which is provided with a continuous inside surface of resilient.

Opposition Proceedings

An opposition has been entered by (1) Barar Beads Manufacturers (Private) Ltd., (2) Prabhat Beads, (3) Lakshmi Glassbeads Works and (4) Hind Glassbeads Works, to the grant of a patent on application No. 61537 made by Pearls and Beads (India).

Printed Specifications Published

A limited number of printed copies of the under-noted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

55379. 55799. 55805. 55824. 55836. 55842. 55866. 55884. 55983.
56027. 56152. 56225. 56226. 56237. 56276. 56316. 56377. 56387.
56464. 56692. 56705. 56746. 56783. 56941. 56942. 57007. 57050.
57071. 57236. 57252. 57338. 57432. 57484. 57537. 57650. 57773.
57774. 57775. 58176. 58292. 58491. 58538. 58539. 58710. 58789.
58933. 58957. 59103. 59181. 59491. 60199.

Correction of Clerical Errors

Under Section 62 of the Indian Patents and Designs Act, 1911, certain clerical error occurring in specification No. 57477 was corrected on 12th August 1958.

Patents Sealed

56713. 57111. 57292. 57937. 58104. 58143. 58162. 58163. 58165.
58167. 58187. 58190. 58191. 58198. 58209. 58211. 58224. 58258.
58271. 58357. 58370. 58387. 58418. 58476. 58555. 58609. 58780.
58814. 58865. 58899. 58912. 58955. 58975. 59009. 59042. 59114.
59201. 59215. 59323. 59356. 59696. 59868. 59896. 59923. 60228.
60488. 60582. 60667. 60702. 60899. 60900. 61016. 61156. 61281.
61411. 61412. 61443. 61739. 61770. 61786. 61861. 62257. 62271.
62272. 62449. 62450. 62478.

Amendment Proceedings

(1)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The Indian Oxygen & Acetylene Company Private Limited now re-named Indian Oxygen Limited, of 48/1, Diamond Harbour Road, Calcutta, West Bengal, India, an Indian Company seek leave to amend the name of the Applicant in the application, specification and drawing in respect of Patent application No. 62297. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

(2)

Notice is hereby given under Section 17 of the Indian Patents and Designs Act, 1911, that The Indian Oxygen & Acetylene Company Private Limited now renamed Indian Oxygen Limited, of 48/1, Diamond Harbour Road, Calcutta, West Bengal, India, an Indian Company seek leave to amend the name of the Applicant in the application, specification and drawing in respect of Patent application No. 62298. Any person desirous of opposing the application for amendment should at any time within three months from the date of this Gazette, give notice of his intention to do so on the prescribed form (form 6 of the Indian Patents and Designs Rules, 1933) in the Patent Office, 214, Lower Circular Road, Calcutta-17. The proposed amendment may be seen free of charge at the Patent Office, or copies thereof may be obtained from the Patent Office, on payment of the usual charges.

Registration of Assignments, Licences, Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interests:—

33945	}	—Harris—Intertype Corporation.
44668		
44837		
44838		
44839		
45845		
46364		

41545—Raul Pateras Pescara.

43649—Metal Closures Limited.

55180—Veb Erste Maschinenfabrik Karl-Marx-Stadt.

58207—Rohm & Haas Company.

59008—Johnson & Johnson.

Renewal Fees Paid
